

AISF Members tour of Davey Pumps

The tour of Davey Pumps, in the eastern suburbs of Melbourne was a very well attended event.

Hosted by Quality Manager, Simon Arnold, AISF members were given a full tour of Davey's operations in Scoresby.

Davey Water Products manufactures and distributes a comprehensive range of products for transfer, conservation, treatment and filtration of water and is a market leader in Australia and New Zealand.

The tour encompassed the laboratory which inspected samples of inwards goods to ensure they comply with Davey's specifications, the semi-automated assembly lines, the powder coating plant and packaging line.

The powder coating line was of particular interest especially for the members who have not witnessed a conveyor line in operation.
